TECH DIVAS

Project Description:

The fast-paced work environment comes with lots of constraints such asstress, anxiety, etc. Hence, it has become important for an individual to take care of both physical health as well as mental health. Our team is building software for mental health support website that can help people suffering from mental illness. It is a platform where individuals can talk freely without being judged and get help from medical professionals. Users can log in to their accounts and ask questions to medical professionals about anything they want.
